Some of the First Cosmic Family members living at Planetary Headquarters

Welcome

We welcome you to the first issue of *The Salvington Circuit*. The reason why this publication is called *The Salvington Circuit* is because here at Planetary Headquarters an energy reflective circuit (ERC) has been established between celestial and human personalities which is a broadcast link between Salvington, the capital of our universe, and our planet, Urantia. This publication will bring Continuing Fifth Epochal Revelation (CFER) through the mandated vessel, Gabriel of Sedona. The first one tenth of the Fifth Epochal Revelation was transmitted between 1911 and 1935 and is known as the Urantia Papers, which was published in 1955 as *The URANTIA Book*.

Our Statement of Intent

The Salvington Circuit is published to:

1. Bring Continuing Fifth Epochal Revelation to as many Urantians as possible with hopes that they will become students of *The URANTIA Book* and Continuing Fifth Epochal Revelation.
2. Help open the circuits of Urantian and cosmic reservists so they can realize their destiny .
3. Implement the Divine Government of the present Planetary Prince, Machiventa Melchizedek, using human personalities.
4. Gather members of the 7 Cosmic Families from all parts of the planet at Planetary Headquarters.
5. Set up six other communities in various parts of the planet consisting of these cosmic families.

Our celestial overseers are:

Christ Michael, Creator and Sovereign of the Universe of Nebadon.

Overcontrol Executive Editors:

Gabriel of Salvington, the Bright and Morning Star, Chief Administrator of Nebadon.

Paladin, Chief of Finaliters on Urantia and main spokesperson for various celestial personalities.

Executive Editor: Machiventa Melchizedek, Planetary Prince of Urantia.

Presently on the human level are five elders:

Gabriel and Niann of Sedona; Mandate of the Bright and Morning Star.

Delphius, Editor and First Assistant; Liaison Mandate of the Bright and Morning Star Mandate to the First Ambassador or First Ambassadors and cabinet and a liaison of the Bright and Morning Star Mandate to the general public.

Sananda and White Cloud, First Ambassadors; Mandate of Machiventa Melchizedek.

Although we are who we say we are and we publish cosmic absolutes in Continuing Fifth Epochal Revelation, at this stage the Trustees of the URANTIA Foundation are not of the same opinion. The publishers do not claim affiliation with any organized URANTIA movement group.

The Salvington Circuit is a bi-monthly publication. Any correspondence may be addressed to the Editor, P.O. Box 3946, West Sedona, AZ, U.S.A. 86340. Suggested donation for yearly subscription \$25 US or \$5 US for single copies. Checks to be made out to Aquarian Concepts Community.

... "The kingdom of heaven may be likened to a certain king who made a marriage feast for his son and dispatched messengers to call those who had previously been invited to the feast to come, saying, 'Everything is ready for the marriage supper at the king's palace.' Now, many of those who had once promised to attend, at this time refused to come..."

...he appointed yet another day for the wedding feast and said to his messengers: 'They who were first bidden to the wedding were not worthy; so go now into the parting of the ways and into the highways and even beyond the borders of the city, and as many as you shall find, bid even these strangers to come in and attend this wedding feast'...

A MESSAGE FROM YOUR PLANETARY PRINCE

A General Letter to the URANTIA Movement, and All Spiritual Seekers and Children of Christ Michael, the Universe Father, and of His Father, the Universal Father. All Those Who Desire to Do the Will of the Father, Take Heed.

To those who have really studied *The URANTIA Book* I suggest that you study it again in regard to the way in which Celestial Overcontrol brings government to a planet such as Urantia, and in regard to the various dispensational realities. Even the Creator Son himself, as Jesus of Nazareth, at the beginning of his ministry, established an association with humans to work with him and to share the things of the kingdom so that what was shared could be taught to others. With the Fourth Epochal Revelation the headquarters was first in Bethlehem, then Nazareth and various parts of Palestine, and later, in Jerusalem. Wherever Jesus and his apostles and disciples were, was Planetary Headquarters. Before his baptism, as he ventured out into other parts of the then known world, Jesus' time had not yet come. For those here at Planetary Headquarters in Sedona, Arizona, USA, their time has not yet come. One of the reasons that the time has not yet come for all those loyal to Christ Michael in the highest way who are willing to be in the perfect will of the Father, is because of the many others whose loyalties are to their addictions which they are doing a good job at trying to hide, and whose loyalties are to their egos, or to the organizations of man.

Those of the first century and those whose loyalties are now to Christ Michael will find themselves at the true Planetary Headquarters doing the will of the Father, helping to bring about the first stages of light and life on Urantia within the government of Machiventa Melchizedek without having to see a physical manifestation of myself, or for that matter, a physical manifestation of Jesus. They will come; they will understand, and they will learn because of the gift that God has given them, the Spirit of Truth. They will

come from all parts of the world, as they have already started to do. I will not manifest myself physically to any man or woman because of their doubts of who I am, or to verify my title given to me by Christ Michael. That which is given by God is established within the circuits of truth that can be ascertained by those who are also in those higher universe broadcast circuits and higher psychic circles of spiritual attainment.

The Continuing Fifth Epochal Revelation is coming through Gabriel of Sedona, who is an audio fusion material complement, and who has the mandate of the Bright and Morning Star. He is not a channel; he is much more. He is much more than the vessel who was used to bring the first part of the Fifth Epochal Revelation printed in *The URANTIA Book*; and when his time comes, many who should have been here in Sedona years previous to their realization of who he is and what is happening here at Planetary Headquarters, will have only then discovered their own destiny within the Divine Government as cosmic and Urantia reservists. Caligastia is doing everything he can to discredit all that is happening with the Aquarian Concepts Community at Planetary Headquarters because it truly is the Planetary Center of Light, just as he tried to discredit everything that took place from Bethlehem to Jerusalem. It was those within the religious institutions of that day who put Jesus on the cross. Do you want the same to happen to Gabriel or Sananda or any of the elders? One day, perhaps when it is too late to help Urantia, would you still desire to touch the wounds of their future morontia bodies? Blessed are they who do not see but yet believe, for they shall inherit the kingdom of God.

There are many in the URANTIA movement beginning to channel. There are many transmissions that will be given from Planetary Headquarters to explain this phenomenon. But I would like to say at this point in this transmission, that if you are receiving messages now, or have received them after December of 1989, you are an ovan soul and you are hearing from a part of you that lived in another universe at another time, a higher one, or you are hearing from Caligastia himself or from one of his staff. He is very active at this time, trying to divert attention from what is happening at Planetary Headquarters. Because such channeling is a dangerous area at this time, if you are channeling at Woods Cross or any other place, let this be a warning. It means that you are being called to come to Sedona, Arizona to learn, to become a reservist. You should stop all audio communication at this time, as it is not from Michael's staff or from my staff. It is not from any within the administration of Christ Michael at the celestial level or anyone from my staff at the planetary level; not midwayers, not seraphim, unless they are fallen ones. So, you are on dangerous ground. If you are hearing from your higher self, certain circuits have been purposely opened up within you by Overcontrol; and you should come to Sedona, Arizona, humble yourselves, submit to proper authority and learn what is happening to you and why, or suffer the consequences of your own arrogance or ignorance.

The papers that will come in book form from Sedona, Arizona (and there are many volumes to come) will speak for themselves. Some of the information from Planetary Headquarters that has been sent to various people around the planet has already leaked out. It should be obvious to those who have received these transmissions that certain material received from these other "channels" first came from Sedona, Arizona. That is why we sent them.

The Continuing Fifth Epochal Revelation is more than just words on a piece of paper. The truth of the reality of what is happening here in Sedona, Arizona is the same truth that any true believer would have seen in the first century with the followers of Jesus. Those in Sedona are not here for personal gain, fame or fortune but to do the will of the Father. They have unity and cohesion; quite simply, they have the union of souls on a planetary level, something that none of these other channels truly have. We extend to all of you skeptics a personal invitation to come here and see for yourselves. Do not think that you can merely talk to someone who has been here. Perhaps you will hear a negative view of us because they themselves do not want to get rid of their own addictions. As Jesus said, "He who loses his life for my sake shall find it, and he who finds it must first lose it." This is the message from those in Sedona, Arizona, to those who are not willing to let go of their "other gods." In Sedona there are certain rules and regulations; there are certain spiritual values that we in Celestial Overcontrol ask all to ascend to. There are no

drugs; there is no marijuana, nor can anyone be an alcoholic. We try to establish the very universal ethics, universal morality and spiritual values that Jesus himself tried to establish in the first century, and those who cannot follow those values seem to find fault with what is happening at Planetary Headquarters.

Your loyalty truly must be to Christ Michael, not to the interpretations of truth and dogma that many of you stand on.

Truly, it is not just reading the words actually spoken by Jesus in the first century or those spoken by the apostles who interpreted them; nor is it just the understanding of *The URANTIA Book* in the mind alone that brings the ascending son or daughter to the higher circles. The virtues of God are the criteria by which personalities will be appropriately judged by the Ancients of Days, and that judgment is taking place now, for the adjudication of the Bright and Morning Star vs Lucifer is presently taking place. Truth is there for the seeking, but in order for you to find it you must be looking in the right places. Your loyalty truly must be to Christ Michael, not to the interpretations of truth and dogma that many of you stand on.

Jesus taught in parables. Many who he taught were in large groups, but only those who were truly seeking their God with right motives understood what he said. Certain truths in the hands of the wrong people will be distorted by those who use cosmic facts and laws for their own self-aggrandizement and selfish purposes. Just as it is with nuclear power, so it will be with spiritual truth, which are actually one and the same but you don't know that yet.

The gift of Continuing Fifth Epochal Revelation will be given to those on Urantia who are deserving of it, and it will be understood by those deserving of it. *The URANTIA Book* is the fulcrum for the Continuing Fifth Epochal Revelation. Even the fulcrum cannot now be understood at a necessary level to bring most of the human beings of Urantia to the fourth circle of attainment. Those who are in the Urantia movement, because of their partial understanding of this incomplete revelation, have come to the fourth circle, but that is as far as they will go on Urantia without dying a physical death. If they can come to understand the Continuing Fifth and what is happening at Planetary Headquarters with the same true keys of the kingdom that were given to the apostles and their successors, that being humility and sincerity, they can move into the higher circles. Without this humility and sincerity, you will stumble in your own pride. We have nothing to prove at Planetary Headquarters; we just are. We will not send out ambassadors at this time to prove the validity of what is happening at Planetary

Headquarters. When we do mandate them and send them out, they will be invited by people from all parts of the planet, and they will go with dignity and authority and will be received with respect. Students will come to Planetary Headquarters from all parts of Urantia like they came to Dalamatia, like they came to the First Garden, like they came to Salem and like they came to Palestine.

Students will come to Planetary Headquarters from all parts of Urantia like they came to Dalamatia, like they came to the First Garden, like they came to Salem and like they came to Palestine.

Chicago was chosen for the geographical location in which to bring the first one tenth of the Fifth Epochal Revelation because certain groups of personalities would be able to be brought together to bring through that revelation in physical form. The same thing is happening in Sedona. If we could have done it in West Virginia we would have done it there; if we could have done it in Pittsburgh, we would have done it there; or if we could have done it in San Francisco, we would have done it there. Geographic location does have something to do with interdimensional and extraterrestrial transport and visitation, but if we would have had to bring together those with the virtues of higher psychic circle attainment outside of a particular physical location used for transport and visitation, we could come to those other areas in a matter of minutes from any location on the planet. The fact that those who were chosen were able to hear from their God in the highest way and be personally gathered in Sedona, Arizona because they were able to make the necessary sacrifices to do so is a plus and means much more than you could imagine. If many of you who have doubts would come to Sedona to empirically see and sense the geography itself, you would understand what I am saying. It is a known fact stated in *The URANTIA Book* that a divisional headquarters of the archangels is on Urantia. Where do you think it is, in the Gobi desert? in Chicago? in Woods Cross? Go to these other places and see and feel for yourselves. Wouldn't it stand to reason that wherever the archangels are would be a very special location with or without those who can hear from their God being there also? Chicago was never meant to be Planetary Headquarters. It was meant to be where the first part of the Fifth Epochal Revelation was brought through. I was not meant to come to Urantia until Continuing Fifth Epochal Revelation began to come to Urantia, and that was in January, 1988 with Gabriel. I came in 1989. I came because human sons and daughters of Christ Michael and the Creative Mother Spirit were able to hear from their God and be brought to the central location where the archangels are without touching the wounds of Jesus, their savior and risen Lord, as described in the personal transmissions to Sananda and White

Cloud on page 16 and Paper 197 of the *The Cosmic Family, Volume I*.

Who is man, that God is so conscious of him? We are very interested and very concerned with you human mortals on Urantia, particularly those of higher psychic circle attainment who can be given more responsibility; those reservists, both cosmic and Urantian. We are very concerned because the majority of the people of Urantia are suffering, and have been suffering for so long, and we wish for that suffering to end. I do not have the authority within my title of Planetary Prince to materialize so that all can see me. The Creator Son was very visible as he walked this planet. Look what happened to him!

The majority of the people on the planet do not recognize truth when they hear it, or appreciate it when they see it or sense it, and because of that Urantia suffers. We could change the whole planet using lower minded personalities of higher virtue who could hear from their God, but not with higher minded ones who cannot. Remember, Lucifer who fell was a Primary Lanonandek Son, and all the beings who fell with him, from seraphim to midwayers, are much higher in mind than Urantia humans are. If you can fuse your higher mindal knowledge with the virtues of God, and have the ability to truly hear from the threefold spirit of God within you and can activate those circuits, then you will not be trying to discern what is happening in Sedona from Chicago or elsewhere. You should be here in Sedona trying to find out, for that would be the best way. So please, don't embarrass your God, Christ Michael, or myself, your present Planetary Prince, Machiventa Melchizedek, with your admissions that you are trying to discover the truth about Sedona without coming here to do it. I suggest that you request information regarding our weekend seminars at the Schools of Melchizedek. If you can recognize love, the true fruits of the spirit and true service, then come and see it. If you are not willing to do this, then all of your other meetings, the misuse of your time, the letters written, or the quoting of "revelations from God" concerning Sedona, Arizona, will be considered by us to be part of the rebellion which you are still in and don't realize. For if you have received this letter and are reading it, you are being called into responsibility.

I suggest that until you can get here to Sedona, you take the avenue of requesting *The New Order* book written by the human Gabriel which explains how he became an audio material fusion complement and how Planetary Headquarters was established; how Sananda and White Cloud, with the mandate of myself, Machiventa Melchizedek, came to be here; how Delphius came from Australia to be here and became the Liaison Minister of the Bright and Morning Star; and how the Schools of Melchizedek became established here in Sedona as they once did at Salem. You should also request *The Cosmic Family*,

Volume I which will soon be available in print. We have told the eldership to set a standard of \$20.00 minimum donation for these books. Until Christ Michael returns and the Divine Government is set up in its full power and authority, the humans at Planetary Headquarters have to pay for printing costs, office materials, supplies, postage, etc. In the first century the apostles of Jesus appointed deacons to take donations so that the apostles could do the things of the ministry of God. At Planetary Headquarters all services of healing, transmissions, counseling and teaching are done by donations. Those who say that the elders involved here are trying to get rich from their spiritual services ought to come here to see how they live. If you would like to be in spiritual work but have not been able to, we suggest that you read PAPER 202, *"The Cosmic Law of Equivalent Reciprocity in Relation to Destiny Fulfillment,"* which will be published in *The Cosmic Family, Volume I*. If all those at Planetary Headquarters at this time had been independently wealthy, they could have published two or three volumes of *The Cosmic Family* already, and the majority of you would have been able to ascertain the high quality of these papers and come to conclusions one way or the other about what is happening at Planetary Headquarters. Because of the circumstances that have existed, this letter is necessary for obvious reasons.

For it was said about him, "and every eye will see him, and every tongue will confess, that Jesus Christ is Lord." He is the Sovereign Ruler of all Nebadon, and he will come to this planet as that sovereign ruler. I am only his creation; I am not a creator. I am one under authority and I know my place. Do you know yours? That is what we are trying to teach at Planetary Headquarters.

It is said on your planet that "you cannot judge a book by its cover," and again I give you an open invitation to come and investigate the inside of the book; the lives of those at Planetary Headquarters, how they have given their lives on this planet for the last 20 or 30 years or so, and compare it, with how you perhaps have given your lives. Those elders and first assistants who have been mandated and all students are here because they have recognized, by the activation of the Spirit of Truth within them, something in the same transmissions that has for some reason been blocked by your own ability to act accordingly. The problems on Urantia are so vast, and communication is hindered by Caligastia and his forces to such a degree that the problems inherent in the establishment of the Divine Government in and through human personalities are very much influenced by the inability of many of you to truly

follow God's highest will in your lives. You will come to realize this when you begin to incorporate the Continuing Fifth Epochal Revelation into your reality or when you truly begin to understand morontia mota, which now are only printed words, no matter how many times you have read them. Most likely the majority of you will not comprehend what I am saying until you are on the mansion worlds. It is for those who can be reached, and for those who are truly humble, that I take the time to bring this transmission to you. For if we can reach only a few of you it will make a difference to hundreds, perhaps thousands more in the future. Your one life in the perfect will of God at this time is so important.

→ It is understandable that many of you would like to see the physical manifestation of my government and for the kingdom to be established by power, force and takeover. If you think about it, isn't that what many wanted Jesus to do? Even if Trinity Teacher Sons come, they will not do it that way. Only when Jesus returns will it be done that way. For it was said about him, "and every eye will see him, and every tongue will confess, that Jesus Christ is Lord." He is the Sovereign Ruler of all Nebadon, and he will come to this planet as that sovereign ruler. I am only his creation; I am not a creator. I am one under authority and I know my place. Do you know yours? That is what we are trying to teach at Planetary Headquarters.

This is an invitation to all of those who truly want to find their place in the destiny of this planet, your reason for being here. The purpose you have been given life on Urantia is to come out of the third dimension and truly into the fourth, to be led by the Spirit of God, not by the will of men nor by the self-will of your own pride. I extend the same command that Jesus extended to those who he felt to be worthy: "Come, follow me."

February 25, 1993

Machiventa Melchizedek, present Planetary Prince of Urantia; in cooperation with the System Sovereign, Lanaforge; for the implementation of the Divine Government in and through human personalities, and the calling forth of the cosmic and Urantian reservists to bring about and usher in the first stage of light and life on Urantia within the jurisdiction and overcontrol of the Bright and Morning Star of Salvington as mandated by Christ Michael; as transmitted through the Material Complement, Gabriel of Sedona.

... come and investigate the inside of the book...

ARRIVAL AT PLANETARY HEADQUARTERS

by Delphius

When I was personally first contacted by Celestial Overcontrol in May, 1991, through Gabriel of Sedona, I had no idea about the changes that were so soon to take place in my life. I did not know who I really was or where I originally came from. I did not understand why I had so often looked up at the stars at night with a longing look in my eyes and thought, "I want to go home." I had not heard about cosmic family; it was all new to me.

A few of the early transmissions that had come through Gabriel I had published in the *Six-O-Six*, an Australian publication with an international readership, of which I had been the editor between 1985 and 1991. They claimed to be a continuation of the Fifth Epochal Revelation, better known as *The URANTIA Book*, Urantia being the name of our planet. I had studied that book since 1979 and some of the things that were spoken of in these transmissions seemed to contradict what I had so far learned and understood from *The URANTIA Book*. Despite the many doubts that I at first had in my own mind, despite the adverse reaction from some of my fellow *URANTIA Book* readers and readers of the *Six-O-Six*, I decided to persevere with this new information and wait and see if perhaps after the first generalities things would be explained further and in more detail. As time went by many things were explained, but each new transmission also brought many new questions to my mind.

In *The URANTIA Book* there is a mysterious paragraph on page 1258 which talks about the cosmic reserve corps of universe-conscious citizens on our planet. The Chief of Seraphim, stationed on Urantia, who wrote that particular paper of *The URANTIA Book* said:

"The cosmic reserve corps of universe-conscious citizens on Urantia now numbers over 1,000 mortals whose insight of cosmic citizenship far transcends the sphere of their terrestrial abode, but I am forbidden to reveal the real nature of the function of this unique group of living human beings."

This had been written between 1911 and 1935; before I was born. Who was the Chief of Seraphim talking about?

One of the transmissions which I published in *Six-O-Six* was addressed to the Cosmic Reserve Corps of Destiny and some of the other transmissions explained that there were now millions of souls on the planet who were asked to come to Planetary Headquarters in Sedona, Arizona, U.S.A., to be trained at the Extension Schools of our new Planetary Prince, Machiventa Melchizedek. The transmissions spoke

of the state of crisis our planet is in and the need for the mobilization of this army, or Cosmic Reserve Corps of Destiny, before the big earth changes and many catastrophes would take place. The transmissions also spoke of the adjudication of Gabriel, the Bright and Morning Star, versus Lucifer that had begun in 1911 with the coming of the Fifth Epochal Revelation and which was now drawing to a close. They spoke of the realignment of our planet after 200,000 years of rebellion and the pre-stages of light and life, which were to happen very soon. They spoke of a cleansing period of our sick and abused Mother Earth and that many people would transcend to another dimension by physical death, but that at this stage on

Urantia it was not necessary to do so for one could transcend into the fourth dimension by light body. They spoke of a gigantic evacuation of other survivors by spacecraft. Science fiction? I don't think so!

At the present time Continuing Fifth Epochal Revelation is still coming through and the more I read, study and live it, the more sense it makes. Especially when I watch what is going on all over the planet.

The story of my migration to the U.S.A. is a book in itself. Only God, my family and friends (celestial and human) know the struggles I have gone through. It took about 18 months to obtain my visa after I was first contacted by Celestial Overcontrol. But finally on November 28,

1992, I arrived in Sedona, Arizona, U.S.A., at the Headquarters of our Planetary Prince, Machiventa Melchizedek. I really received a warm welcome from all of the community members of a vast cosmic family from other planets and even other universes. On the second night I was here the Bright and Morning Star "walked in" singing "love goes before me" and he invited us to join him in the singing. He had taken over Gabriel of Sedona's body, voice box and eyes. He welcomed me to Planetary Headquarters and said that I would receive a new cosmic name, which I did later on in the evening. I cannot remember all the things he spoke of for it was such an overwhelming experience. He radiated so much love that it is hard to describe. One has to experience it to believe it. He gave me my mandate. He told me I was to be a messenger, just like the Brilliant Evening Star I am named after; that name is Delphius. The finaliter Paladin also came through. A finaliter is an ascended soul of mortal origin who has attained the Universal Father on Paradise. Paladin is now Chief of Finaliters on Urantia and he has been assigned to gather his progeny or first cosmic family here in Sedona. He is a very strong Father-circuited personality with a great sense of humor. This finaliter, although originally coming from another universe, has had several lives on this planet and many of his progeny were the great leaders throughout the turbulent history of our planet. Many of these leaders were repersonalized souls from other universes.

Although The URANTIA Book describes the ascension career of our own universe of Nebadon, it does not give us any details on different ascension careers in various other universes.

Although *The URANTIA Book* describes the ascension career of our own universe of Nebadon, it does not give us any details on different ascension careers in various other universes. I knew from reading *The URANTIA Book* that there are many universes and that each one is created by the order of Paradise Michael Sons. The creator of this local universe is called Michael of Nebadon, also called Christ Michael. This same Christ Michael bestowed himself as the Son of Man, Jesus of Nazareth, almost 2,000 years ago on our planet Urantia. He was the living incarnation of God and his main mission was to show, not only to the people on this planet, but to all his created sons and daughters throughout his vast universe of inhabited planets what the real nature of God or the Universal Father is like. After he personally left Urantia he bestowed his Spirit, the Spirit of Truth, to dwell within the hearts of all his faith sons and daughters.

The transmissions taught that not all Michael Sons have the same ascension careers for their ascending sons and daughters and so what was described in *The URANTIA Book*

as the norm for this universe did not necessarily apply to other universes.

It seemed that the Lucifer rebellion, which occurred 200,000 years ago, had a far wider detrimental effect, even outside this local universe, than was revealed in *The URANTIA Book*. How this occurred is described in the transmissions or CFER, which one can read in *The Cosmic Family, Volume 1*. It was decided by the Michael Creator Sons from other universes that it would be best for the rebels to experience what it is like to live on a planet in rebellion. A bit like saying, "Alright you guys, if you think that Lucifer's ideas are so great, go and try it out for yourselves!" And so these souls were sent to where these rebellious planets were, and that was to one of the fallen planets in the system of Satania (named after Satan before he fell). That is why there are 170,000,000 souls from other universes gathered on Urantia at this time for the adjudication of Gabriel versus Lucifer, the *Grand Finale!* There are also other repersonalized souls who are here because it is part of their ascension career.

The more I read of the CFER the more the whole puzzle seemed to come together. But as with all things the proof of the pudding is in the eating and although I had accepted this new revelation with my mind I still had to experience it with my heart. And I think that is where the key lies. It is the experience of the love of one's cosmic family which creates a certain energy, called *auhter energy*, which has to be experienced first to be believed. Most of the members in the Aquarian Concepts Community (that is the name of the Community) are totally dedicated to the service of their Creator and their fellow men. On the material level they struggle to make ends meet. They give freely of their time, only asking for donations, but are really used by many who do not realize the value of their teaching. The present monthly donations barely provide for the rent of two elders, phone bills, children's schools supplies, printing and mailing costs, and other community expenses.

Gabriel and Niann are sometimes stretched almost beyond their human strength. So many people need their attention. They have three small children and Niann also has work outside of the community so that they can have food on their table, clothes on their backs and pay for the mortgage of their house. Even during working hours she is doing spiritual work with a local touring company, bringing many people to God and the Fifth Epochal Revelation and Continuing. Sananda and White Cloud spend many, many hours, day after day, week after week, working on the transmissions, and teaching. Time is short before the change point and as many people as possible have to be reached. It took 20 years before *The URANTIA Book* was published, but there isn't that much time now. This takes total dedication.

Over the last 2,000 years the apostles have been elevated to the status of saints, but *The URANTIA Book*

describes that they were very human and still had their faults. The human personalities here are not saints either; on the contrary, they themselves are very aware and humble about how human and imperfect they still are. But there is love in their hearts and they keep trying to do the best they can. It is easy to criticize, but it is another matter to try and walk in their shoes and achieve what seems to be the impossible. There are others in the community giving freely of their talents, their time and their love without public recognition. Despite the many knock backs, the disappointments, the criticism, Gabriel stands firm. Unlike the person who was used for the first part of the Fifth Epochal Revelation, who was a trance channel, Gabriel is not. He is also to be a leader and a teacher and is aware of everything that is spoken through him. In many ways it would be easier for the celestial personalities and for Gabriel if he was a trance channel, for he has to allow them to say things to people they don't want to hear and has lost many whom he loved because they were not ready for the truth. He has the highest mandate of any human on the planet and that is the mandate of the Bright and Morning Star, which he shares with his highest spiritual complement, Niann. Before the celestials can bring through information Gabriel has to study many hours to register certain terminology in his mind. He has to push back frustrations, emotions, worries, etc. to allow the spiritual personalities to come through. These personalities are all very unique and different, just like the personalities who wrote the Urantia Papers each have their own personalities.

Sananda and White Cloud share the mandate as First Ambassadors of our new Planetary Prince, Machiventa Melchizedek, who, although unseen at this present time, is physically present at Planetary Headquarters. Part of Sananda's mandate is to bring personalities from other dimensions

through his light body by the process of transfiguration. When I sat in front of Sananda I saw several faces. Some of them seemed familiar and it has been explained to me that as my own memory circuits re-open, I will remember who they are. Sometimes Sananda brings through personalities who want to ask forgiveness of the person, who is sitting in front of him, for some harm that they have done to this person in the past. This harm could have happened thousands of years ago. As people forgive, a certain healing takes place, firstly in the astral body or the ovan soul when the person deals with the information given to them through Gabriel by Overcontrol (usually the finaliter Paladin) about past-life traumas or cruelties to someone. Secondly in the etheric body with Sananda, and thirdly in the physical body with other members of the healing team, if necessary, to help step up the process in the physical, which may include herbal supplements, Reiki, massage, Rosen, and Tron therapy (a CFER energy technique also new to the planet). For more information about this healing process, please request PAPER 205 of *The Cosmic Family*.

Working here at Planetary Headquarters is a walk of faith. Two thousand years ago the Master said to his apostles, "Follow me." The apostles had to leave their families and friends, their homes and material security behind. This work is not for the faint-hearted. It takes courage and unswerving loyalty. It takes a loving heart. It takes team work, for none of us can do this alone. We are working with many celestial personalities whose reflectivity we are trying to grow into. We have to become and be the Fifth Epochal Revelation as Jesus was the Fourth.

It is my dearest wish that many more will hear the Master's Spirit, the Spirit of Truth, now once again he bids us "Follow me."

Building on the Old

by Niann Emerson Chase

Ever since I have come into the Fifth Epochal Revelation, which includes *The URANTIA Book* and Continuing Fifth Epochal Revelation, I have realized this source is definitely the highest revelation on the planet. I have been on a serious spiritual path since I was seven years old and have delved deeply into many avenues of spiritual and religious expression, but throughout my quest for a closer linkage with my God, even though I experienced many beautiful truths and numerous wonderful manifestations of these truths, I knew that there was something higher that was available. What that higher expression was I did not find until I encountered *The URANTIA Book*, and upon my initial

discovering and studying the book, I knew without a doubt that this was what I had been anticipating for 30 years of my life. Within months of acquiring *The URANTIA Book* I also became active in bringing through Continuing Fifth Epochal Revelation by uniting with my highest spiritual complement, Gabriel of Sedona. At the time of my union with Gabriel, we were not yet of Sedona, for that was to come about two years later; but both of us knew that we were to end up in Sedona. I had known since I was about eight years old that Sedona was a place that I would eventually have as "home." At that young age, when I first experienced Sedona, which then was hardly a town and unknown to the world, I realized

that it was a special place with a grace beyond physical beauty and that God wanted me to be there when I grew up. The vision of Sedona as "home" was always in the back of my mind throughout the rest of my childhood and adulthood, until that vision became manifested as a reality in August, 1990.

Growing up on Native American reservations and later living and teaching on the San Carlos Apache Reservation for 15 years enabled me to learn of Native American spirituality and be a part of it. I was also brought up with a strong Christian foundation, realizing that I lived in a loving universe with a Universal Father watching over me. I developed a close relationship with Jesus by the time I was nine years old, knowing that he was a reflection of that loving Universal Father of All. I knew that the God of all creation was a God of love and light, not a God of vengeance and darkness. When I delved into the other major world religions and then into the lesser known ones and eventually into metaphysics, I saw a thread of commonality running through all of these belief systems; but I also saw much superstition within and contradiction between these evolutionary systems. A higher aspect of me desired a revelation that showed me more sanity and continuity. So, when I discovered the Fifth Epochal Revelation, which encompasses *The URANTIA Book* and Continuing Fifth Epochal Revelation, my desire began to be fulfilled.

Since the discovery of the Fifth Epochal Revelation, I have had a strong drive within me to share this wonderful revelation with others. What I have found is that most people do not want to hear about this discovery of mine. They are very comfortable in their belief systems and do not want to be bothered with any more challenges that may require some self-discipline and humility. But I have also encountered many individuals who are searching for something better in their lives, something with more substance and meaning. These individuals have been on a quest and have studied various avenues of so-called spirituality; some of these paths are valid ways to God-consciousness and some are not. In my encounters with these individuals, I have found that using old beliefs and paths that have worked on some level for them and that have some level of cosmic reality and truth is an effective way of introducing Fifth Epochal Revelation to them. Jesus also used this method when teaching others a higher truth.

As a tour guide leading spiritual tours, I employ this method of using old beliefs and traditions that have some level of spiritual truth, as a foundation to build upon with Fifth Epochal Revelation, which all sincere seekers of truth should encounter. For example, I use the construction of a medicine wheel, which is an old tradition for about five Native American tribes and has become popular with many in the New Age movement, as a foundation to bring in the concepts of the Paradise Trinity, the basic structure of the

grand universe, and our Universe Father and Mother, the Lucifer rebellion and some of its effects, and the present adjudication of Gabriel versus Lucifer. I inform those participating in this ritual that I will draw upon the traditional teachings as well as newer revelation that is now available for all on this planet. I call this a cosmic medicine wheel and inform the participants that the newer revelation is the Fifth Epochal Revelation coming to the planet. After doing the ceremony of constructing the wheel, I inform them of *The URANTIA Book* and Continuing Revelation. Many of these people have informed me at a later date that they have acquired *The URANTIA Book* and are studying it; some have already joined us here at Planetary Headquarters and others are planning on joining us in the near future.

I have discovered that I cannot condescend to lower ideas or false beliefs; I must in some way bring in this higher truth, The Fifth Epochal Revelation.

Because I have a foundation of various religious avenues, I can relate to many who have been exploring numerous paths and can build upon their beliefs that do correspond with cosmic reality to introduce higher truth to them. I have discovered that I cannot condescend to lower ideas or false beliefs; I must in some way bring in this higher truth, the Fifth Epochal Revelation. On December 21, 1992 the Bright and Morning Star came through his material complement, Gabriel of Sedona, and indicated that *The URANTIA Book* is the fulcrum or foundation and Continuing Fifth Epochal Revelation is built upon this fulcrum. The dictionary definition of *fulcrum* is the support that supplies capability for *action*. I have used lower evolutionary teachings as a fulcrum to introduce *The URANTIA Book*, but for individuals to understand the continuing revelations at the highest level, they must bring the concepts and cosmic realities that are taught in *The URANTIA Book* into their understanding. In order for individuals to be used effectively in helping to implement a higher reality for this planet called Urantia, they must assimilate Continuing Fifth Epochal Revelation into their being.

I am truly saddened to see that so many individuals who have the fulcrum of *The URANTIA Book* in their understanding have rejected Continuing Fifth Epochal Revelation. They have the support that can give them the capability to act and be used in bringing in the beginning and first stages of light and life, but they do not have the rest of the revelation to enable them to be active in the highest manner that their Universe Father, Christ Michael, wills them to be; and that activity is in the Divine Government of the Planetary Prince, Machiventa Melchizedek, at Planetary Headquarters located in Sedona, Arizona, U.S.A.

DO YOU KNOW YOUR DESTINY PURPOSE ?

COSMIC FAMILY IN RELATION TO DESTINY PURPOSE AND THE MISUSE OF TALENTS AND CERTAIN OTHER MINDAL AND INNATE ABILITIES

It is quite clear to any keen observer of the Lucifer rebellion, that the tactics used by the forces of rebellion are to divide and conquer. Even the lower circled humans of evolutionary religions, Christianity's ministers for instance, recognize this truth. Up until now on Urantia, the cosmic facts in the highest understanding of just how these divisions took place were not given to this planet, nor to the other fallen planets in the system of Satania. Urantia is the first of these thirty-seven planets to receive this information, in the coming of the Continuing Fifth Epochal Revelation. This is because Urantia is about to shift into a higher dimension. Those who have been involved in this division, who have fallen from other planets within the system of Satania, and even from other planets outside the universe of Nebadon, will now be given an opportunity to come back into harmony with the divine purposes of their Creator for their individual existences. It is quite clear in *The URANTIA Book* that many orders sided with Lucifer. What if certain angels who were overseers of countless numbers of mortals defaulted? How were these mortals affected by the rebellion of their guardians? How soon were replacement guardians given to these mortals?

It is not the intent of this transmission to designate in specifics why certain starseed are presently repersonalizing on Urantia. It is, however, the intent to point out some of the various implications that the fall of these starseed have caused - the pain and suffering of countless millions on Urantia, including your own. It is an opportunity for these starseed now to transcend the grasp that Luciferic teachings have had on them and to align themselves with:

1. Their God.
2. The Creator of this Universe, Michael of Nebadon.
3. The higher intelligences who oversaw them at the time of their rebellion who are still responsible for them, as many of these higher guardians themselves have repented of their mistakes and aligned themselves.
4. Their cosmic family and those mandated within that family who may just have been their original father and mother teachers.

When many of these souls fell into rebellion, many families were divided. Many sons and daughters were

separated from their parents and grandparents. On some planets the extent of this division was such that a complete breakdown of a normal society ensued. On Urantia the evolutionary mortal was not that developed in technological advancement; but on planets where the effects of this rebellion had touched their greatly advanced civilizations, the repercussions were much more complex. Many of the fallen staff of Caligastia had relatives on their planets of origin who followed suit with them in their rebellious thinking. Although they were cut off from certain universe transmissions and circuits, there was, on another level, a certain universal telepathic communication that went out to all those who had developed various means of telepathic harmony and communication at their level of attainment. For some time, in this manner, the rebellion spread, even though the circuits were cut off, stemming from the fallen staffs of the planetary princes of those fallen planets. The great powers of the Lanonandek Sons and other unnamed orders of beings were much more detrimental than what you may have understood thus far from reading about the Lucifer Rebellion.

So began the great tragedy of ascending sons and daughters of God now using their various gifts, talents and abilities, not for the purposes of their spiritual ascension nor for the master universe as a whole, but for their misuse in the purposes of self-assertion and unbridled liberty. At first the majority of these sons and daughters did not deny the existence of God. Many millions of them today on Urantia still do not deny the existence of their Creator; they just decided to do things their own way, to program their own destinies, to do what feels good to them, to follow after their own heart; many of them, in the name of self-growth and even spiritual ministry. Many of them joined forces with certain ministers of administration in spiritual domains that overruled countless millions of other helpless individuals, all in the name of "workers of the light." They saw themselves, and still do, as little gods more connected to a divine mind that allowed them to do as they pleased, for they had discovered this new cosmic freedom. They lent their talents and abilities to others who also walked in their footsteps. They became part of administrations that advocated these principles that were pleasing to the self-asserted and rebellious personality. Compromising the higher principles of the God they once understood seemed so natural for them. Does not the end justify the means? So, stepping on toes began. Many of these fallen ones decided that they would do great

things for God on their own timetable, in their own self-chosen geographic areas. They began to respect power, glamour and vanity. They no longer understood meekness, humility, wisdom and true godliness. They enjoyed the timetable of Lucifer, for it seemed to complement their own desires and ambitions. They no longer heard from their Thought Adjusters, and for some of these starseed it has been thousands of years since their Thought Adjusters have been able to reach them.

Those of the cosmic reserve corps who have remained true to the laws of the Universal Father and Michael of Nebadon, the mortal parents and other significant polarities of these rebellious sons and daughters, have tried to gather their lost loved ones back into their original homes time and time again, not only on Urantia but on other worlds. In the lower evolutionary tribal cultures, when sons, daughters and other family members are lost from that clan, the results can be detrimental, causing pain, suffering and death for those who are left behind. They early discovered the interdependence among family members. In higher civilizations and in twentieth century Urantia, the results of unalignment with proper genetic ancestral spiritual elders are not only detrimental to a few, but to countless millions, causing in effect, monopolies of corporations and great control by political and religious systems.

The spiritual deficiencies of twentieth century Urantia are such that these rebellious starseed have remained on the seventh, sixth, fifth and fourth psychic circles for countless centuries without advancing to a higher circle. Yet these ones claim to be ministers of God, hypnotherapists, Reiki masters, gurus, psychiatrists, physical therapists, priests, priestesses, crystal healers, psychics, New Age musicians, rebirthers, astrologers, channelers, popes, presidents, kings, queens, senators, shamans, Urantia Book readers, and even ascended masters. All of them are very complacent in their self-deception. Some of these souls will ascend to the mansion worlds of Satania, but they will have to die to get there, which is not needed at this particular time on Urantia. However, the majority of them will be sojourning on another third-dimensional plane, after they also die to get there. They will die from the many diseases that their self-deceptions have manifested in first their astral body and then in their physical one.

In the next nine years countless millions will likewise die from great cataclysms and earth changes, also brought about by their continued pride and arrogance in refusing to submit to their **true spiritual elders**, who may not have the degrees they worship or the charge cards they idolize. These elders may not even be famous. In times past these deceived people recognized, worshipped and followed to their death inappropriate leaders and lent their talents to the systems of Caligastia on Urantia.

Since the announcement of Machiventa Melchizedek as Planetary Prince of Urantia in December of 1989, and the coming together of the human complements of that government in May of 1991 in Sedona, Arizona, a cosmic force has been established between the existent, ever-present, unseen personalities and their human complements which will cause the implementation of the first stages of the Machiventa purposes. The first purpose will be that those of the First Cosmic Family on Urantia, the Pleiadian connection, will either align themselves with their cosmic elders or they will suffer the consequences of their own arrogance and pride. They will not accomplish their destiny purpose outside of the alignment with the New Order community of their ancestral gathering. They will suffer greater material and relationship needs, and will be open to the various diseases presently manifested on Urantia. They will be out of the protection of their own guardian and will not find their destiny purpose. Even a decade ago these particular souls could have found some fulfillment in their self-assertion. However, the timetable is up on Urantia, and the adjudication has begun.

They will not accomplish their destiny purpose outside of the alignment with the New Order community of their ancestral gathering. They will suffer greater material and relationship needs, and will be open to the various diseases presently manifested on Urantia. They will be out of the protection of their own guardian and will not find their destiny purpose.

Those who recognize where their obligations lie, must first join their Pleiadian ancestry presently located at the Planetary Center of Light in Sedona, Arizona, under the leadership of the mandated human personalities, Gabriel, mandated by the Bright and Morning Star and Sananda, First Ambassador to Machiventa Melchizedek. By aligning with the purposes of Christ Michael in and through this first community, they will discover, not only an accelerated spiritual growth, but true destiny purpose, physical and emotional health and contentment of soul. Just by being in close physical proximity to many of their ancient ancestors, they will be healed of past diseases and wrong thinking that has caused them much pain throughout the centuries of their continued self-deception. They can mate and bring higher starseed into the planet. They can help bring about the physical manifestation of the Machiventa government on Urantia and help establish the ever so important Extension Schools of Melchizedek, in which, after first becoming students, they can themselves become teachers. They will be sent by this government into various places on the planet. They can be the apostles of the New Order, and they can help in the great purposes in the gathering of all the Cosmic

Families. Their circuits can be opened. They will begin to remember who they are and where they came from. Their latent abilities and gifts can be ignited; and they can once again flow into the harmony of respect for their God, the Universe Supervisors, and their mortal elders, who they presently need to recognize and come under their authority.

This letter is not only for the 170 million starseed; it is also for the Urantian reserve corps, for you can also understand these higher concepts and respond and act accordingly. There is much to learn, and we are here to teach you. We bid you come.

June 30, 1991

Paladin, a Finaliter, in cooperation with Machiventa Melchizedek in the present adjudication of the Bright and Morning Star, in liaison with the Midwayer Commission on Urantia to bring this Continuing Fifth Epochal Revelation through the appointed Material Complement, Gabriel of Sedona.

PAPER 203 from *The Cosmic Family, Volume I.*

What Is True Spirituality ?

THE BESTOWAL OF MICHAEL ON URANTIA IN RELATIONSHIP TO THE GIFT OF THE SPIRIT OF TRUTH AND THE ACTIVATION OF THAT SPIRIT OF TRUTH ON URANTIA. WHAT IS TRUE SPIRITUALITY? DOES IT DIFFER IN THE GRAND UNIVERSE?

One of the reasons why Christ Michael chose Urantia was because of its defaulted condition and his plan of gifting this planet with the Spirit of Truth, a part of his divine self, which was not available on all of his inhabited worlds in Nebadon. His divine self is a dual-origin Paradise Son of the Father-Son circuitry. Now the same Spirit of Truth is available to all planets in Nebadon. Because it was the seventh and final bestowal of Christ Michael on Urantia, a certain cosmic fusion took place that became a birthing of the most powerful and cosmic definition of the Spirit of Truth bestowed by the Creator Son himself. Although the Spirit of Truth is the same on all planets where it is bestowed, the level and power of its frequency of those various bestowals differ on system and planetary levels. Because of the personal visitation and bestowal of the Spirit of Truth by Michael, Urantia is first in the whole universe of Nebadon in Spirit of Truth personality and force activation, and due to the attention Urantia has received and is receiving since the crucifixion of Christ Michael, first also in circuitry activation in relation to Son-circuited communication networks throughout the grand universe.

certain conditions based upon that individual's response as an ascending son or daughter in his or her relationship to God the Father. Here, even the person who has accepted a God presence within his or her reality must begin to closer identify that God in higher cosmic insight and definition. The bestowal of the Creator Son on Urantia is a cosmic fact, an historic event in universe reality. Non-recognition of such magnitude at whatever level will keep the person at a lower psychic circle and perhaps on a third-dimensional planet until this cosmic fact is comprehended at a necessary level. In order to tap into existing universe circuits pertaining to memory cycles and cosmic reality, divine law and absolutes, activation must begin within that ovan soul's reality in time and space. Particularly on a fallen world such as Urantia, this can only be done when the Spirit of Truth is received and activated.

The ovan soul has to re-receive the Spirit of Truth regardless of whether it has received it in a past repersonalization. Because it may have received the Spirit of Truth in a past repersonalization since Pentecost, certain Deo-atomic cells are presently activated within the molecular structure which resonate with higher Deo-atomic reality and Paradise energies from both Upper Paradise and Nether Paradise. Ovan souls who receive the Spirit of Truth most likely have received it once before, and will find themselves uncomfortable in orthodox Christianity and usually will come out of it. If they do remain in it, they will likely become

On an individual basis, the Spirit of Truth available on Urantia is activated first within the heart circuit. The spirit energy of the Son is an additional vibratory force engulfing and encircling all Urantia; and that force itself, which is dormant Son personality, is a presence which is activated to the heart circuit of an ascending son or daughter upon

considered by their peers to be nonconformists. Usually they cannot quite fit in with traditional Christian denominations no matter how they try. In observance for almost two thousand years, it has been noted that of these ovan souls in various repersonalizations, very few of them have defaulted by not receiving the Spirit of Truth again, and most of them have been able to either stay away from present-day Christianity or have come out of it. Examples of this would be an ovan soul who in a past repersonalization may have been a Christian, perhaps even a priest, and toward the end of his life saw the fallacy of Catholicism but remained in it because he was not strong enough to come out of it for whatever the reason. Now, in this current repersonalization, he may be a Native American and a good person presented with Christianity as brought to him by Christian missionaries who tried to convert him. Although many within the tribe may convert, this soul is an ovan soul and one who has experienced the fallacy of Christianity once before and believes in the God of Christianity but not in the teachings of the ones who claim to be the messengers of that God. When this soul receives the Spirit of Truth again, it may lead him by pure impression, away from all institutionalized religion, which makes it very difficult for him to earn his livelihood in teaching higher cosmic truths. Usually he has to earn his livelihood in another way, and usually he does not gain the respect of the masses who see him as a renegade. The reality of it is that those who have not conformed have always been the highest teachers on the planet.

Francis of Assisi discovered in his early forties his error in remaining Catholic. It was not malaria or any other illness that caused his death, but grief because he realized that he did not have to go to the Pope for permission to do God's will, and that he could have been much more successful in his spiritual mission outside of the Catholic church than within it. He realized that if he left the church he would lose those closest to him among the followers of the first order which he started. He already had experienced one division within his order and he did not want to create another. The Spirit of Truth, with which he was very much in contact, did get through to him in the end but it was too late, for Francis had grown tired and sick.

Present-day Urantia is experiencing confusion as never before among the billions of people on the planet, first-time Urantians and ovan souls alike. It is ever so difficult for the Thought Adjuster and the Spirit of Truth to get through to the mind and heart of an individual. Many millions receive the Spirit of Truth and then they are gathered by false teachers within the evangelical denominations throughout the world who are themselves deceived. They are then taught the dogmas of man which de-activate the reception of the Spirit of Truth and close the circuits before the Spirit of Truth can truly become activated within the individual. Ovan souls stand a greater chance of escaping the clutches of doctrine and tradition. First-time Urantians presently find

it almost impossible to escape traditionalized Christianity. Therefore the Spirit of Truth in these millions and millions of individuals never becomes fully heard. They misinterpret their own desires based upon the teachings of their pastors and their priests as the Spirit of Truth speaking to them. They go into wrong careers; they marry incorrectly and live their complete lives as Christians in a lower reality, and a false one at that, never reaching the third circle of attainment. Therefore they are open candidates for every disease known on Urantia to afflict them. This is all caused by incorrect thinking, false obligations and misplaced loyalties. Those who do come out of the Christian churches who have seen the fallacies within them, usually have no place to go and so they fall into other false entrapments. Some leave the Christian faith altogether and become Buddhists or Muslims or perhaps identify themselves with the present New Age, which contains much evolutionary superstition and borderline black magic.

Present-day Urantia is experiencing confusion as never before among the billions of people on the planet, first-time Urantians and ovan souls alike. It is ever so difficult for the Thought Adjuster and the Spirit of Truth to get through to the mind and heart of an individual.

Up until the Fifth Epochal Revelation and its publication in 1955, in reality there was no place for these souls to go. The Urantia movement was the beginning of a plan by Celestial Overcontrol to lead all these individuals, first in the United States, and then in other countries around the world, to small groups of higher-circle attainers who could receive the Spirit of Truth at a higher level of activation. As of 1967 they could have also received an additional gift of the Holy Spirit to further help them understand higher revelation. (See PAPER 213 of *The Cosmic Family, Volume I*). Unfortunately, as happens in institutions, many of the Urantia study group meetings lost the concept of interpreting the papers with the gift of the Spirit of Truth. They read about it. Some even asked to receive it, and then they made the same mistake that the born-again Christians make. They looked to Chicago for the answers and not within to the Spirit of Truth or the Thought Adjuster. They were not even aware that the Holy Spirit had become available to them at a higher activation; and perhaps they are still not, all because the interpreters of the Fifth Epochal Revelation became man, and when man interprets God's absolutes, it usually manifests itself in either relative thinking or fundamentalist thinking. In this case, within the Urantia movement, readers old and new alike became Urantian fundamentalists. Presently on Urantia, thousands of them are stuck in this static spirituality. And so the question arises:

WHAT IS SPIRITUALITY?

First of all, we will tell you what it isn't. It isn't a dress code. No form of dress makes a man holy or wise or indeed spiritual, not robes, not collars, not turbans. It is not the way a person walks. It is not their height or their weight. It is not in their ability to speak, nor their intellectual acquirements. No degree given to man or woman can make them spiritual. No university on this planet can proclaim in their schools of theology that a person is now spiritual. No fast of time or sacrifice can make a person spiritual. Neither can the diet of certain foods or vegetarianism as opposed to meat eating make a person spiritual. No substance found in the earth and ingested can make a person spiritual. No chemical injected by modern science can produce a spiritual personality. No amount of wealth, fame or prestige can bring spirituality to a person. No appointment of position by man to man in any capacity can make a person spiritual. No self-sacrifice, no matter how great, alone can make a person spiritual, not the giving of a son or daughter or their rightful husband or wife to God, nor the giving of one's income, nor the continued public announcement to others that you are God's chosen. No amount of adulation of man to man can make another spiritual.

True spirituality is a process that begins based upon certain universe laws and procedures. True spirituality cannot be defined so simply. For example, even those who appear to present the fruits of the spirit may not be so spiritual at all. The virtues said to be the fruits of the spirit can be disguised at various levels of identification on the third dimension. It is not so simple, and many factors have to be taken into consideration. True spirituality for an ascending son or daughter is an acquired thing. It is learned over a period of time and that time may be hundreds, thousands and indeed, millions of years. It does not come upon you as the Baptists and Pentecostals say, in a moment of time upon the reception of the Spirit of Truth, making you perfect. It is an eternal process. When you reach finality you can begin to say that you are spiritual. Throughout the grand universe the degree in which you are truly spiritual is the degree of your own individual blessedness. Blessedness is the beginning of individual happiness; but blessedness is higher than happiness, for one can be happy in sin. For too long on Urantia Lucifer has tried to replace spirituality with other things, thereby decreasing happiness for so many millions at whatever level they could acquire happiness. Whatever level your spirituality is, it creates the reality in which you find yourself and what you have and what you have not. It separates that which you desire from that which you will get. As your spirituality increases, your desires that are based upon the desires of God will become manifest. The Spirit of Truth is the beginning of higher spirituality on Urantia; and the hearing of it, moment to moment above all else, is the activation of that spirituality which leads to your individual happiness and fulfillment. Spirituality is a golden

box and within it can be found treasures, treasures that cannot be bought by ascending sons and daughters, for this golden box is owned by the Supreme Deity; and its gifts are bestowed based upon each individual's willingness to seek his or her God in whatever way one can, based upon that search and knocking on the door of the heart of God, and then the golden box begins to be filled. As you become honest, the gift of honesty is given. As you become patient, the gift of patience is given. As you become giving, the gift of things are given to you. As you seek wisdom over pride, wisdom is given; and the golden box begins to shine with the light of God, and we shall call this box the heart circuit. Wisdom, which increases one's spirituality, cannot be purchased; and even when it is read, it may not be understood, for wisdom is given in and through the Holy Spirit to those who put others first above their own selves, for it is written that love should not seek its own welfare but the welfare of others.

... and then the golden box begins to be filled. As you become honest, the gift of honesty is given. As you become patient, the gift of patience is given. As you become giving, the gift of things are given to you. As you seek wisdom over pride, wisdom is given; and the golden box begins to shine with the light of God, and we shall call this box the heart circuit.

Motives, in relationship to divine ordinance, increase spirituality and bring the body into higher morontian realities and above. Individuals, who are trapped in third dimensional patterns in regard to religious thinking and even livelihood, cannot even begin to reach the higher motives, for the higher motives deal with others outside of one's own nuclear family where most of the people of Urantia are presently obligated. Even worse than that, millions do not even have concern for their own families but only concern for themselves as individuals. The more people who you can place into the sphere of your responsibility, the higher your spirituality. This is a divine thing; and it is divinely understood at different levels; and at whatever level you can now begin to grasp it, it is given to your planet. Certain spiritual leaders of the past have understood this, but it is available for all to understand; and when the mass consciousness of a planet can realize that we are each others' keeper, the suffering of that planet will end. Words can be written and taught but little understood. For thousands of years, philosophers have philosophized upon very high spiritual statements written by prophets and wise men of God, but few manifest the power of those words within their own realities for the benefit of the planet as a whole. At certain periods on Urantia at the time of certain renaissances, many

ovan souls who had once come to the realization of selfless service to mankind were again brought to this planet and repersonalized as contemporaries, sometimes together and sometimes in other countries. It has been necessary on Urantia for these ovan souls to come back, for they have been the only voices to cry out against the established way of Caligastia.

At certain periods on Urantia at the time of certain renaissances, many ovan souls who had once come to the realization of selfless service to mankind were again brought to this planet and repersonalized as contemporaries, sometimes together and sometimes in other countries.

What is spirituality? Many may think it is rebellion... and indeed it is. It is rebellion against Caligastia; it is rebellion against Luciferic reality; it is rebellion against evil, sin and iniquity. Jesus was a rebel who came against the established norm. Today on Urantia the Spirit of Truth is even more so a rebel. Today the societies of the planet are much worse than they were even in Jesus' time. Then, the people suffered in slavery and poverty. Today the people are also blinded because of materialism and foolish self-pursuit. Spirituality is faith. The faith to be humble, the faith to give of one's talents and abilities to the true spiritual teachers and elders on this planet when they can be found and recognized. Spirituality is gentle when it has to be and forceful when it has to be. It is Father-Mother. It is not just Mother nor can it be just Father; and when the son or daughter is in balance with both, spirituality can be perfected, for the fusion of childish youth then is incorporated with matured age; and a liveliness of spirit presents itself instead of rigidity and inflexibility. Spirituality enjoys a good laugh, and some of the most highly spiritual personalities of time and space are great comedians. But the comedy is pure and is based upon cosmic fact of the relationships of the evolutionary process which is most humorous on the higher levels. Spirituality is discipline. Discipline and perfection are wonderful as long as within this perfection one does not become so stagnant that one cannot change when necessary. Spirituality to those who recognize it commands authority, and we bow to those of higher spirituality because of that spirituality in relationship to the God of All. Spirituality and authority cannot be escaped, neither can spirituality and responsibility. Many refuse to become spiritual because they realize, even at a lower level, that they cannot escape responsibility for themselves or for others. Spirituality begins in knowing one's place with God at any particular moment in that individual's existence. The saints of the past may be spiritual, but as they ascend to the higher mansion worlds and above, their spirituality increases, as it does with ovan souls who return to this pla-

net, and others, and who do not default in their reasons for being on Urantia or in their missions if they are cosmic reservists. Spirituality is strong character; and strong character is the fusion of the Eternal Father, the Eternal Son and the Infinite Spirit in mortal likeness.

On some planets there are beings who you would consider quite obese, but in comparison to any spiritual Urantian mortals at this time they would be like one with a Ph.D compared to a kindergarten child in terms of their spirituality. It is because spirituality is a nontangible thing. You cannot touch spirituality, nor can you always judge it by appearance, and when you do you have erred greatly. On some planets, those who are highly spiritual may be in a body form that would be so different from yours that they would actually frighten you. But those of us who have ascended high enough to sense the essence of God within them, once again bow to their spirituality at whatever level they have attained it. Spirituality cannot be technically acquired or scientifically produced. It can be scientifically analyzed in accordance with higher understanding and Ascension Si analysis, but it cannot be programmed, for only God can create a perfect being and the Creator Sons are the only ones given this power.

There is a difference between courage and foolishness. True courage demands some form of spiritual attainment. The more courageous one becomes in true spiritual alignment, the more one will accomplish for the benefit of all on a particular planet. Spirituality is colorful and creates in the astral realms the purest perceptions of divine colors that can resonate around any one particular individual personality. These colors in turn manifest healing to that individual and to those who are blessed to be near them. On Urantia, the highest spiritual personalities most often become drained of energy, for so many others unknowingly draw from their life force. True spirituality is fragrant with odors that higher celestial personalities can distinguish. This is why, sometimes around high spiritual personalities, flower essences are recognized even by humans. These things such as color and smell are sciences in themselves and we are just beginning to touch on the subjects. The higher the spiritual personality, the more in control of one's self in all respects one may become. It is increasingly easier to take into account many wrongs suffered to them without justifying oneself, for one begins to realize that justification is not necessary and only pride wishes to make itself correct. It is one thing to correct a person's wrong thinking. It is another thing to do it when it is either not necessary or out of pride. The line is so thin that it may take thousands and thousands of years to come to the place of accuracy. Higher spirituality is knowing the difference. Spirituality is knowledge fused with wisdom and applied with experiential reality in the evolutionary worlds and above. It is applied existential and experiential reality in relationship to God and to others of God's creation.

Higher spiritual personalities are social creatures. They are not isolationists. Solitude, although not only a temporal reality, can become a damaging thing when the spiritual personality begins to self-contemplate to the point of misaligning with higher authority or one's peers at any level. Social communication with colleagues within the same realm of spiritual ascension is medicine to the ovan soul. It is within the union of souls that higher spirituality can be manifested and actualized by ascending beings. Higher spirituality in the company of one's elders knows when to voice an opinion and when not to, and higher spiritual teachers know when to ask of those individuals their opinions and when not to. Higher spiritual personalities are ever so absolute. There is no question once they have presented their opinion based upon absolute reality as they know it. If a question arises it is in the misinterpretation of what the lower individual heard them say, and this is so throughout the ascension process. Truth is often misinterpreted, for it is heard at the level of one's own spirituality and no more. The problem always arises, how does a higher ovan soul or being communicate with a lower one? Therefore, spirituality is the ability to descend to a lower level and make oneself understood at that level of communication. For if you are not understood at any level, you have no value as a teacher of cosmic reality. You may do well in the solitude of the libraries of time and space, but in practical application to the rest of creation you could become a worthless individualist, and at the point where this begins to happen the personality begins to default. Always in these cases, lack of patience is found in these individuals; and so it is increasingly important that the art of communication to lower-circle individuals be learned and acquired; and it begins in the personality when one begins to look at one's own lack of patience and inflexibility. These tendencies are common to mortals of time and space void of the higher reception of the Holy Spirit, particularly in stronger Father-circuited personalities. In my own ascension to Paradise as a finaliter, it was one of my hardest faults to overcome. It is not in the text of this transmission to give the solutions to the preceding statement, I can only state the possible problem.

Higher spirituality is not envy, nor is it jealous of those who have acquired what they have not, either materially or nonmaterially. Envy and jealousy are two of the hardest things to recognize in one's self. It can take thousands of years within the growth of an ovan soul before the degrees of envy and jealousy of an individual can be recognized. These faults of character are again, lengthy in concept to describe. These unfortunate traits were found in Lucifer, and we have found that it is ever so difficult to open the eyes of those who have followed in his footsteps and acquired these unfortunate traits. Justification of one's own jealousy and envy is quite a thing to measure on our side. There are volumes written on these subjects in the higher schools on the satellite worlds, so it is not a subject you just touch upon. One thing that we have found where envy and

jealousy continues to exist in personalities is a decrease in their clairvoyant perceptions and of course the reception from their own Thought Adjuster, depending upon the spiritual acquiescence and other attributes of those individuals that determine the many things pertinent to their present reality and certain mandates given to them. Mandates can be given to individuals who have traces of envy and jealousy, as mandates can be given to those with other bad habits. It is true, God is the judge of these things; and it should be left to the Creator Son and personalities of Paradise origin to decide these things and contemplate upon them. We at lower levels can discuss these things and contemplate as to why mandates are given to the imperfect, but it is much easier for us to do so, for our memory circuits are more open at higher levels, and we remember our imperfect selves more clearly. It is written that ascending mortals at times often think too highly of themselves. Spirituality and humility are siblings. They balance each other out and indeed are from the same parents. Humility cannot be known unless some form of spirituality exists, but spirituality can exist at a lower level where no humility at all exists. Spirituality comes first; humility follows and grows and grows and grows. Throughout eternity humility is a learning process which increases one's spirituality.

Spirituality is knowledge fused with wisdom and applied with experiential reality in the evolutionary worlds and above. It is applied existential and experiential reality in relationship to God and to others of God's creation.

Spirituality is visionary. It is not crippled by fear. It is prophetic and finds its purpose in the recognition of the divine purposes of others as well as of oneself. The more one can recognize the function of others in the divine plan and can recognize another's individual placement in the timetable of the divine clock, the higher the spirituality within the personality. Spirituality is adventurous. It begins to take risks because of its increased faith, not only on the defaulted worlds of time and space, but in relationship to other unknowns of time and space higher spirituality begins to build. It first learns to plant the seeds; then it learns to find the correct soils and what seeds to plant for the various beings of time and space; it learns the particular foods that need to be digested in body, mind and spirit. Spirituality does not always do what feels good to the individual. It learns to do what feels good to God, and it learns to recognize that one's own feelings may interfere with the perfect will of God. It learns to separate one's likes and dislikes for the higher good of all. Higher spirituality is not based upon always catering to your feelings; it discerns the will of God upon the combination of mind and heart fused with the mandated purposes of God as given first

through the Thought Adjuster, Spirit of Truth and Holy Spirit within, and agreed upon then by Celestial Overcontrol at various levels, and on evolutionary worlds, by mortal eldership. Higher spirituality learns not only to listen to the inner self but to the inner selves of others who are their spiritual elders, mortal human or other celestial personalities who are all together hearing the same divine mind. Higher spirituality understands the difference between rest and slothfulness and can discern the same in others and can make use of idle time for the purposes of God wherever it may find itself. Moment to moment, it is always useful to God, even in periods of rest and relaxation it is in divine will.

Higher spirituality does not overwork itself to the point of indifference to family, social or union of soul responsibility. Whatever it does, its purpose is within the divine will; and it has learned to accept each moment as a gift of divine origin and looks upon the moment as a continuing learning experience.

The previous comments on spirituality are just a beginning of the comments that could be made and is not complete by any standard of time and space. They are presented here to clarify some misconceptions on Urantia of

who and what is spiritual; but before you can begin to understand any of this at the level necessary, I suggest that you turn your life over completely to God and request the Holy Spirit to make itself known within you, and this begins by accepting Christ Michael, your Universe Father, who became Jesus and left behind his Spirit of Truth for your education. Begin your registration now at the University of Salvington so that your circuits can be opened to the capital of this universe of Nebadon, and align yourselves properly with the absolute truths which are the foundation and stepping stones to Paradise. If you have not taken this first step, please do.

Paladin, Chief of Finaliters; in cooperation with Christ Michael, Creator Son of Nebadon; in the adjudication by the Bright and Morning Star vs. Lucifer for the implementation of the Planetary Prince, Machiventa Melchizedek, and his government on Urantia; as transmitted through the Material Complement, Gabriel of Sedona.

Adjudication by Gabriel vs Lucifer

THE ADJUDICATION BY THE BRIGHT AND MORNING STAR VERSUS LUCIFER, THE ESTABLISHMENT OF THE GOVERNMENT OF THE PLANETARY PRINCE USING HUMAN PERSONALITIES AND THE ANNOUNCEMENT OF MACHIVENTA MELCHIZEDEK AS THAT PLANETARY PRINCE

My adjudication began in the Earth time, approximately 1911. This occurrence had been prophesied through other prophets. It began with the beginning of the Fifth Epochal Revelation and slowly, throughout the years, with representatives of my government, under the mandate of Christ Michael our Universe Sovereign, rematerializing on Urantia. In 1934 and 1935 a higher vibratory frequency was established. In 1955 an even higher vibratory frequency was established. In 1967, quite unknown to the URANTIA movement, another vibratory frequency was established. By this time the URANTIA movement had fallen from the clear reception of their Thought Adjusters and the Spirit of Truth within them. Had they been open to the voice of God many of them, and so many other millions, would have received the baptism of the Holy Spirit of my Divine Mother, the Universe Mother Spirit, and would have manifested the gifts of her spirit. It would have enabled them to receive and understand the Continuing Fifth Epochal Revelation now being given through the mandated personality, Gabriel of Sedona. Many Protestants and Catholics alike received these gifts. If the obstinate *URANTIA Book* readers had asked for

it, they too would have received the manifestations of the Mother circuits and could have been an aid to those Protestants and Catholics to help them in the understanding of the Fifth Epochal Revelation. I call upon all *URANTIA Book* readers to receive the baptism of the Universe Mother Spirit and humble themselves and seek learning from God and Continuing Fifth Epochal Revelation which the Spirit of God is pouring out upon this planet for all who have ears to hear. It is her last gift before her rebirth. It is a complement to the Thought Adjuster and the Spirit of Truth within. It is the dance of the renaissance. It is the fruit of the tree of life. It is the cleansing water of the soul. It is the mirror of complacency and pride. It is the fire for the slothful. It is milk from the breast of the Mother for the obstinate and the final covering of the Divine hand from our Paradise Father. It is the awakening light in the eyes of all souls who receive her; the essence of true respect and submission to the Father and all personalities that are elders within the Father circuits of time and space, particularly to those who are mandated within the Government of Machiventa Melchizedek, the present Planetary Prince of Urantia.

It is her last gift before her rebirth. It is a complement to the Thought Adjuster and the Spirit of Truth within. It is the dance of the renaissance. It is the fruit of the tree of life. It is the cleansing water of the soul. It is the mirror of complacency and pride. It is the fire for the slothful.

It is not within the text of this transmission to define the mandate of the Bright and Morning Star or the mandate of Machiventa Melchizedek given to Gabriel of Sedona and Sananda respectively, of Sedona. However, what I do give is for you who are chosen to read this transmission, to activate that which is within you as reservists and awaken you to your proper destinies and soul urges. It is the mandate of the Bright and Morning Star given to Gabriel of Sedona, to manifest to all the vast cosmic family quite real physical blessings and to change circumstances and to come against any of the evil forces on behalf of any of those cosmic family members who wish to align themselves with the First Cosmic Family and the establishment of the Machiventa Government upon this planet. It is a mandate that brings the highest love mates together, their highest spiritual complements. It is a mandate of fulfillment to individual personalities and souls. It is a mandate of perfection which comes from the overcontrol of thousands of unseen celestials on this planet. It is a mandate of universe administration unified on a third-dimensional plane upon entering the fourth dimension. It is a mandate of interdimensional and interplanetary communication. It is the reopening

of the circuits of Nebadon and Orvonton with your world, Urantia. There is only one personality on any one planet who can have my mandate. It is a mandate of healing of the astral soul and body and all other bodies which you will come to learn about including the physical Urantian. It is a time-and-space-warp mandate that knows no boundaries within its universe of existence, that being Nebadon. The past, present and future are coexistent within this mandate. You will come to learn of these things since you have this personality with you and I am with you, Gabriel of Sedona being the material complement for me. Until your planet has entered the first stages of light and life, a process that is being greatly accelerated now upon this adjudication and within the government of Machiventa Melchizedek, I, the Bright and Morning Star, take personal representation and overcontrol. All those within the First Cosmic Family who align themselves perfectly with their God, first-time Urantians and those from other systems and universes and particularly those of Avalon, to some degree can manifest the power, harmony and love of this mandate. I bid you all come from the four corners of this planet, who are to be part of this great work and manifest destiny. The harvest is ripe but the harvesters are few.

OFFICE OF NEW PLANETARY PRINCE

FIRST APPEARANCE OF MACHIVENTA MELCHIZEDEK TO SANANDA, HIS MATERIAL COMPLEMENT AND FIRST AMBASSADOR, WITH THE ANNOUNCEMENT OF HIS ELEVATION TO THE OFFICE OF PLANETARY PRINCE OF URANTIA; CLARIFICATION OF THE TITLE "SANANDA"; AND WARNING TO CALIGASTIA REGARDING PROTECTION AND SAFE PASSAGE FOR ALL THOSE CALLED TO THE EXTENSION SCHOOLS OF MELCHIZEDEK AT PLANETARY HEADQUARTERS IN SEDONA, AZ, U.S.A.

On December 9, 1989 in Santa Fe, New Mexico, U.S.A., an area very close to several energy reflective circuits near the Four Corners area in which hundreds of celestial visitations were made by physical spacecraft and seraphic transport alike, an area that slowly deteriorated in

mass consciousness from the spiritual position it had been designated to obtain; it was decided by Christ Michael, the Bright and Morning Star, the Acting Governor General of Urantia, and the Chief of Seraphim that it was time that I make my first appearance to a human personality and to

re-establish the seat of the Planetary Prince upon Urantia. Chosen to be the First Ambassador was Sananda whose father in a past life, Lao-Tse, was also a material complement to me and an interplanetary receiver like Gabriel of Sedona. We had found our audio receiver and he was given the complete mandate of the Bright and Morning Star and all that went with it. Now it was time to appoint the visual representative of myself and other celestial personalities who would form themselves in scope quite visually through the light body of Sananda, and so it was decided that my announcement would first be made to Sananda and White Cloud in Santa Fe. Caligastia was told many things that I cannot give in this transmission but one of which is that he was not allowed to cause any physical accidents to Sananda or White Cloud or try to take their lives and that upon leaving, neither he nor any of his representatives would be allowed within a five mile radius of their physical bodies. A half dozen angelic beings were assigned to protect this radius until Sananda and White Cloud would eventually come to the protected area at the Planetary Center of Light in Sedona, Arizona. The reason I give this information is because those who read this transmission and know you are also supposed to be in Sedona, Arizona might wonder if Caligastia could try to do the same thing to you. Fear not, for if your alignment is in the will of the Father you will have that same protection until you reach your destination within the Aquarian Concepts Community at the Planetary Center of Light in Sedona, Arizona, U.S.A. What Sananda did not know then is that my government would be established in Sedona; and I physically would live there, although unseen at this time, but ever present within the same five mile radius of the two mandated personalities and other family members. This first community will be the prototype for the first cities of the New Order. It is not a government of human beings but a government with divine overcontrol and divine design using mortals to exemplify the administration of divinity projections within a lower world framework.

The signature of the First Ambassador carries with it the warning to those who assume to be spiritual teachers but whose motives are far from divine. It is a warning to those who call themselves messengers of the brotherhood of light, channellers of archangels or even indeed Michael or whom-ever they claim to be contacting, that they must humble themselves and become students at the Extension Schools of Melchizedek. They first must find their true God and the Creator Son of that God, the ruler of their Universe of Neadon, Christ Michael, and then submit to his appointed and mandated human personalities. The first of these is Gabriel of Sedona and the second is Sananda and all other elders, men and women alike, who have first aligned themselves with their complementary polarities and cosmic ancestors at the Planetary Center of Light. If they refuse to

heed the request of Sananda then they have refused me, for his name carries the complete authority of the Office of the Planetary Prince of Urantia just as Gabriel's name carries the complete authority of the Office of the Bright and Morning Star of Salvington. Each of them will come to learn of the complexities of their own mandates in the years ahead, and so will all of Urantia. We suggest to those who are interested in the healing of their physical bodies that you request Transmission I (PAPER 205 of the book *The Cosmic Family, Volume I*), for Gabriel works within the astral and Sananda the etheric.

Sananda was the title of Christ Michael on another planet when he took the office of Planetary Prince. It is not the name of Christ Michael and never has been, not on this planet or any other. It is a title, a title now given first to myself, Machiventa Melchizedek, the Planetary Prince, and to my human representative, Sananda, who bears the title in your dimension.

It is a title, a title now given first to myself, Machiventa Melchizedek, the Planetary Prince, and to my human representative, Sananda, who bears the title in your dimension. If you receive a personal letter of request from either Gabriel or Sananda, I pray that you treat it with the utmost respect, for any reason they would have to contact you is in accordance with the true Spiritual Government of this universe and the lines of communication therein, starting with Christ Michael and proceeding from the Bright and Morning Star to myself, Machiventa Melchizedek, on Urantia. We have at our fingertips thousands of supermortal and celestial personalities to see to it that you begin to respect their requests, for this indeed is the adjudication of Urantia. Truly, let the love of God brighten your horizons. Let the discipline of God guide your thoughts and let godlike humility direct your decisions.

ASCENSION ASTROLOGY

SIMILECTIC GENETIC ALIGNMENT TRANSFERENCE (SGAT) IN RELATIONSHIP TO THE AQUARIAN AGE, WHICH IS THE ALIGNMENT OF URANTIA WITH PLANETS IN THE HIGHEST STAGES OF LIGHT AND LIFE IN THE SYSTEM OF SATANIA WITHIN THE CONTEXT OF THE ADJUDICATION BY THE BRIGHT AND MORNING STAR VS LUCIFER WHICH, IN ITS UPSTEPPED ENERGIES, HAS ACCELERATED SINCE THE ARRIVAL OF THE PLANETARY PRINCE IN DECEMBER OF 1989

In 1967, the activation of the Holy Spirit of the Universe Mother Spirit to the planet as a whole and to individuals on Urantia was greatly upstepped, as mentioned in a previous paper. This began the alignment of Urantia with the highest planets of aught energy in the later stages of light and life in the system of Satania. This manifestation of synchronicity has to do with the beginning alignment of certain individuals of the cosmic families in 1967, who were beginning to receive in their personal relationships with God, the activation of the Spirit of Truth of the Bestowal Son, and the activation of the Universe Mother Spirit, which has become known as the baptism of the Holy Spirit. In actuality, the latter is the activation of the Infinite Spirit circuitry from Paradise in and through the Universe Mother Spirit to individuals on Urantia. At that time, however, none of the cosmic family members knew of Continuing Fifth Epochal Revelation or perhaps even of *The URANTIA Book*.

It began a consciousness on Urantia wherein the group, community or planet began to become more important than the individual self. This was more highly understood by the spiritually minded. At that time, spiritually-minded psychologists and scientific astrologers also understood that great archetypal energies, correlated by time-space realities which they little understood, were bringing about a change in consciousness on Urantia, but that is basically all that they understood. In their lower understanding, they believed that this had something to do with the alignment of physical planets. As mentioned in *The URANTIA Book*, this understanding is ignorant and superstitious. However, there is a correlated reality in which time-space correlation of both physical and spiritual energies in nature are activated by seraphim at the beginning of an age. It is these seraphim along with other celestial personalities that begin this energy activation at the beginning of various ages pertinent to the consciousness needs of that particular evolutionary planet, imparting to beings of an evolutionary planet both inner and outer message patterns, affecting major world events as well as individual private lives.

In the Aquarian age, or first stage of light and life, humankind will regain the value of the feminine principle.

Again we must be reminded that the Universe Mother Spirit energies are activated on an individual level and on a worldwide conscious level. Fusion of mindal abilities and knowledge within the intellect with heart is a necessity to activate the circuitry of the Universe Mother Spirit. The Father circuits must provide the structure and administration to fuse with the feminine and the artistic. Aquarian energies promote the desire in ovan souls to know of their past, and for native Urantians the desire to better understand the collective spiritual history of Urantia's past. The Aquarian age is the fusion of science and spirituality that has been termed in previous papers as Ascension Si. It is the higher understanding of what formerly has been, at times, erroneously called the supernatural, such as:

1. subatomic particles
2. the nature of light
3. parapsychology
4. psi phenomena
5. alternative healing
6. radionics
7. Kirlian photography
8. telepathy
9. exploration of the causal, astral and etheric or bioplasmic bodies.

The Aquarian mind develops a hunger for the knowledge of energies and systems of universal law which control all life and creation of the master universe. This ascension astrology, which I will elaborate upon later in this paper, is understood in terms of statistical research and Ascension Si investigation into Continuing Fifth Epochal Revelation. God, to the Aquarian mind, is the First Source and Center of energies, both physical and within the psyche. God is the intelligent principle behind all laws. Aquarian energy, which is **interuniversal aught energy**, is concerned with the group or cosmic genetic families or union of souls. It is understood in the Aquarian mind that this Aquarian age is to be one of cooperation rather than competition, but a much higher understanding must be understood by New Age thinkers in relationship to family cooperation and coordination in genetic relationships. It is the elevation of women in society to positions of leadership operating in feminine

Paradise circuit energies that will designate the Aquarian age as truly unique and Universe Mother circuited. It is the emergent energy of the Father circuits of creative individuality and authority fused with motherly perception and the intrinsic values of the individual for the benefit of the group or planet, and not just for the self or a capitalist corporation in which the ego is trying to succeed.

The Aquarian mind is logical, consistent and principled. The whole is more important than the parts that compose it. One must find his or her genetic cosmic family and heritage and give his or her talents to that group, rather than to sell them to the highest bidder. Organization and discovery is vital to the Aquarian mind coming into the first stages of light and life. The Aquarian mind has a higher connection to the Thought Adjuster, the God within, as this mind begins to see God as a Father and not just as a force or an energy.

Aquarian air is higher Deo-atomic oxygen, and humankind is no longer subject to the rebellion of past ages of earth, fire and water. The first stage of light and life brings the Aquarian Deo-atomic air that opens the memory circuits of ovan souls and brings higher understanding to native Urantians. Humankind will only find themselves by looking inward to change, and in actualizing the words of Jesus, the Fourth Epochal Revelation, who said, "He who loses his life for my sake, shall find it, and he who finds his life must lose it first." Then one must look to the Father for help to make those changes. This help comes by energy transference of various potencies from Salvington by way of a vast administration to the evolving mind through the brain's neural networking. It has spiritually become known as grace.

Urantia's wobbling on its polar axis as it orbits around the sun and its position in the heavens in relationship to other planets or stars has nothing to do with individual destiny, but it does have a correlation with the personality circuit of the Universal Father and the changing eras of man's development of consciousness, which usually precedes the arrival of an epochal revelation and continued minor revelations of energy potency at approximately 2,000 year intervals pertinent to **similectic genetic alignment transference (SGAT)** stages in the mortal evolutionary mind development on two-brain-type planets. One brain and three brain planets differ in the era stages of SGAT.

The statement of the midwayers in *The URANTIA Book* that astrology has nothing to do with the events of human life on earth is true, but the Brilliant Evening Star and the Archangel of Nebadon also stated that the frank and honest search for true cause gave birth to modern science; it turned astrology into astronomy, alchemy into chemistry and magic into medicine. If earth astronomers would have incorporated a primal absolute God into their science with spiritual insight, they would have discovered many secret

universal cosmic facts, secret because only a spiritual mind can discover such truths. Astronomy would have become interuniversal similectic genetic alignment transference, which we have also termed ascension astrology for the sake of scientific astrologers who are discovering cosmic realities. Is this not the way in which Christ Michael taught and lived as he took the truths of all evolutionary religions and built upon them? Should we now not also do the same in this era of human existence with the more scientific astrology of the 1990's that is beginning in its Ascension Si infancy to realize certain factual cosmic realities?

After certain general statements were made by the midwayers and a Melchizedek Son about astrology on Urantia, it was decided by the then acting Resident Governor General in cooperation with the Melchizedek director and the revelatory commission that certain other papers should be given. These papers would include an increased understanding of similectic genetic alignment transference and also repersonalization. A brief instruction on these subjects was given in these papers. What transpired was an unfortunate reality to present-day Urantia in relationship to what has been written and incorporated into *The URANTIA Book*. William Sadler Sr. was vehemently against the idea of reincarnation at any level, even before he came to the URANTIA Papers. He was also vehemently against astrology. He agreed very highly with what was first given, but when the second group of papers came, shedding more light upon these areas, he had a very difficult time incorporating these papers into what was already given. This was coupled by the fact that an assistant of his was present when these papers came through rather than he personally. He then began a systematic degradation of these papers to the point that he argued with his own staff for many years as to the validity of these papers, making irrational statements to the effect that the staff member himself incorporated them into the text. We ourselves were working with an interplanetary receiver at that time who was not the type of receiver that Gabriel of Sedona is, where we are able to deal with the moment to moment personality disputes, so we could not correct the situation which developed after 1935. All that we could do was to pray that these papers would be put into the book and incorporated with all the other papers given. Unfortunately, this was not done, and those papers were eventually destroyed by those who feared truth. We were unable to rectify the situation until a Continuing Fifth Epochal Revelation vessel was found. The loss of these presentations of the higher realities of similectic genetic alignment transference (ascension astrology) and repersonalization in regard to cosmic reservists has complicated our present task. Many souls who could have benefited from *The URANTIA Book* and now, Continuing Fifth Epochal Revelation have been left in confusion and doubt because of these unfortunate omissions.

Those who studied astrology in its higher God-connected inspirational aspects studied it for the purpose of under-

standing the psyche. The word psychology comes from the Greek words for soul (psyche) and reason or divine wisdom (logos). One of the problems with astrology today is the lack of understanding of the cosmic definitions of mind, soul and personality. The compatibility between psychology and astrology has always been evident when the astrologer was one who understood a God-oriented universe. When astrology is void of the Universal Father and his personality bestowals, astrology becomes superstitious ignorance and confusion. But whenever astrology was incorporated with a Father-centered universe, astrology became enlightening. It is unfortunate at this time that the higher aspects of present-day astrology, which is actually ascension astrology and SGAT reality, is not understood in the context of a light and life planet. Urantia now coming into the energy frequencies and space potencies of these higher planets has nothing to do with physical alignment and conjunctions; it has to do with energy alignments with the higher consciousness or auhter energy created by the souls on those planets who are of intrauniversal or interuniversal genetic relationships. On a third-dimensional planetary level, your Urantian scientists in physics who deal with electricity in motion call these phenomena electro-kinetics.

Throughout the system of Satania, these energy alignments are charted; and maps are written for higher celestial personalities to work out their own destiny purposes and functions, and for other administrative personalities of celestial orders to work out their own administrative functions. On higher planets of light and life, these charted maps are actually given to evolutionary mortals who understand them, just like you understand your own maps in relationship to geographic locations of countries, continents and so on. On Urantia there is also an electronic navigational system which establishes the approximate position through the coincidence in amplitude of two radio signals called the electra system. Urantia is now being included into this mapping process in relationship to these space-energy potency maps. A coordination begins on Paradise, and it goes outward to the created universes. Some of these energy maps are so intricate that it takes dozens of Urantian years to even begin to understand them. Higher celestial personalities use these charts to make far-reaching decisions in relationship to universal structure, and Creator Sons use these charts to create universes, based upon the prior understanding and enlightenment of former ages and former planetary system, constellation, universe and superuniverse ethics.

Similectic genetic alignment transference contains genetic reality on an ultimatonic level and below. It cannot be understood by the evolving Urantian mind at this time. We can only bring this information to you in generalities, but in a step by step, precept by precept and concept by concept level, Continuing Fifth Epochal Revelation will

begin to bring these concepts and principles to you on a continuing basis so that at some point you too will begin to understand these higher genetic energy realities so that you can understand who you are in relationship to the cells which make up your body. In the future you will also be given these charts on this planet when any of you are able to have a high enough understanding of them that they can be incorporated into your intrauniversal and interuniversal space travels, for which some of you will become eligible.

In the future you will also be given these charts on this planet when any of you are able to have a high enough understanding of them that they can be incorporated into your intrauniversal and interuniversal space travels, for which some of you will become eligible.

There is an ordered and patterned transference of interuniversal genetic reality, not only because Urantia has incorporated interuniversal genetics into its reality, but also because interuniversal transference of genetic reality is a superuniverse reality and has nothing to do with the visitation and repersonalization of interuniversal personalities from one system or one universe to another. This has more to do with Paradise circuitry that functions in all of the seven superuniverses and which gives life to all the mortals and evolutionary races of these planets. It has to do with the stages of light and life development on these planets. Here on Urantia, because of the adjudication, I, the Chief of Finaliters, have been given my status. This is based upon SGAT reality. It is also based upon my seed which is on Urantia, which is explained in other transmissions.

This reality has also been able to bring Adam and Eve back to this planet, unseen but ever present now in administrative functioning on Urantia. It soon will also bring either Christ Michael back to this planet as he promised, or the Trinity Teacher Sons, which is the orderly process when the auhter energy at this level is created by genetic personalities of intrauniversal and interuniversal combinations. This is happening now at the Planetary Center of Light in Sedona, Arizona, USA because of the spiritual ascension and union of souls between those who are now functioning as a corporate unit exemplifying the beginning stages of light and life within their now small community. It is not so much the quantity of these personalities that matters; what matters more is the quality of these personalities. It must be remembered that the ever present but unseen celestial staff has always worked on Urantia with sometimes less than one hundred and five members. The staff of Caligastia was one hundred. If Aquarian Concepts Community can come to that number, the potential to change this planet and bring in the Trinity Teacher Sons will be just as real as the events that took place at the beginning evolutionary mind levels when

Caligastia first came to this planet. Now on Urantia, the members of the Aquarian Concepts Community are of a much higher evolutionary mind consciousness than were the Urantians 500,000 years ago, which greatly adds to the power of the auhter energy that is now being created at Planetary Headquarters. With just a few at Planetary Headquarters, great and marvelous things can happen on Urantia but it must be ever understood that each and every one of you is dependent upon each and every one at Planetary Headquarters in the administration and eldership who also are ever so dependent upon one another. No one member, no one personality, can bring in the Trinity Teacher Sons. There must be a consciousness and an auhter energy of corporate, non-competitive reality, for this is what the first stage of light and life is.

SGAT patterns in space are important, even to evolutionary mortals in the system of Satania who travel by physical spacecraft. Just like on Urantia when roads are constructed, those who understand the maps can travel on the better highways for more speedy travel from one place to another. In space it is the same way. Planets that are more aligned to genetic reality in the higher ascension status create a higher light in the seemingly dark universe. These lights are seen by evolutionary mortals and are read by meters much like your radiation meters, and it is known by the evolutionary mortals aboard these spacecraft that they can depend upon these energy paths which have even become known on your planet at lower levels as star routes. Energy reflective circuits are star routes from various planets to Urantia, and certain student visitors from these planets can come to and go from Urantia because of these star routes or energy reflective circuits. There can be a star route from one planet to another without an energy reflective circuit, but there cannot be an energy reflective circuit without the personalities to create the interdimensional transference. Neither audio communication, audio material fusion (walk-in) or etheric visual communication (transfiguration) can take place without genetically aligned personalities. The genetic reality that is incorporated in the aligned personalities on the higher circles of attainment on Urantia actually is in alignment with the majority of personalities of the other planets. In a sense, you can say that the whole universe is one; each planet is dependent on another planet. Eventually this becomes a great science which is too complicated to explain here, but which Continuing Fifth Epochal Revelation will begin to teach in the future. This is due to the fact that all sub-atomic particles, intrauniversal or interuniversal, organic or inorganic, in the first stage of light and life, begin to be pulled to their complementary elements or point of origin reality. This creates a higher electromagnetic charge in the human body which is particularly high in ovan souls and extra-terrestrial genetic strains. This is a process similar to dedifferentiation and differentiation* as described below.

For those who read this paper and who may have doubts about this ascension astrology, we ask you this

important question. If you truly think that you are a first-time Urantian and are not a reservist, what good is it that you have learned the first one tenth of the Fifth Epochal Revelation and are unable to bring true actualization and true fulfillment into your life? You are still trapped in sheer existence, keeping a roof over your head, working at jobs or careers that you may dislike, tied down to the mundane realities of life and unable to meet your destiny. If you truly look at yourself, you will find that you are unfulfilled and perhaps are sick with the many diseases which are affecting you and have already taken some of your friends and loved ones from this planet.

Continuing Fifth Epochal Revelation was not brought to this planet to bring death, for death is no longer necessary. It was given to this planet to bring life and fulfillment. You must not look at the first one tenth of it in *The URANTIA Book* as the final source of all your answers and the answers of all mankind, as it states within it that it is not a complete revelation. Throughout all of the morontia worlds in the universe of Nebadon you will be receiving continual revelation. The Fifth Epochal Revelation is not over on Urantia. It may not be over for another fifty or sixty years. We remind you that the Fourth Epochal Revelation lasted on Urantia from the time that Jesus could speak and teach as a little child to his last word on the cross which was over thirty five years, and he was the Creator Son himself. Why do you then think that the Fifth Epochal Revelation would only be 1934 and 1935, or for that matter, from 1911 to 1935, when the Third Epochal Revelation was 94 years, the Second Epochal Revelation was 117 years and the First Epochal Revelation was 300,000 years? Don't put yourself into the box of your own smallness. Humble yourselves and continue to learn, or you will suffer the consequences of your narrow-mindedness and false loyalties.

Paladin, Chief of Finaliters; in cooperation with Adam and Eve, presently resident on Urantia and the Chief of Seraphim to bring about the calling forth of the cosmic and Urantia reservists to Planetary Headquarters to be instructed in Continuing Fifth Epochal Revelation at the Schools of Melchizedek for the sake of Urantia and all its inhabitants, as this is the adjudication by the Bright and Morning Star vs Lucifer; as transmitted through the Material Complement, Gabriel of Sedona.

*DEDIFFERENTIATION: The process in which a mature specialized cell returns to an original, embryonic, unspecialized state.

DIFFERENTIATION: The process in which a cell matures from a simple embryonic type to a mature specialized type in the adult. Differentiation involves restricting or repressing all genes for other cell types.

PAPER 267 from *The Cosmic Family, Volume III*.

REGARDING COPYRIGHT FROM A COSMIC PERSPECTIVE

It was said by Solomon, son of David, "What can be said that hasn't been said before?" Throughout the history of Urantia, those who have made great discoveries in science, the arts, mechanical engineering, in architecture, and writing in relationship to philosophy, should have realized within their own consciousness the truth of authorship within the context of the words of Solomon. Living on a defaulted planet one has to protect one's ideas, one's inventions, or one's writings, but this is not the normal process on worlds where beings have nothing to fear from others, nor are they concerned about their survival or self-aggrandizement, for love and divine authority rule these planets at higher degrees. On Urantia where humanity has learned to get rather than to give, and to take rather than to give, in the getting it does not matter who is injured as long as the goal is achieved.

Christ Michael and his vast administration of Nebadon, from the Bright and Morning Star to the present Planetary Prince of Urantia, Machiventa Melchizedek, would like to make it quite clear that Continuing Fifth Epochal Revelation is for the people of Urantia to use in accordance with their own conscience before God. They can copy it, teach it or distribute it or perhaps further elaborate upon it as long as they don't try to stop us from doing the same or alter it or claim authorship. We hope that all spiritual seekers look to Planetary Headquarters and the Extension Schools of Melchizedek in Sedona, Arizona, U.S.A., for unaltered and original books, transcriptions and/or papers. So, Aquarian Concepts Community, the incorporated legal non-profit corporation that we established in and through the humans we are in contact with, will not at any time now or in the future bring anyone to court for using any of these terms, concepts and truths, for one cannot copyright universal truth or a concept that is from God. It is a gift to the planet to be given unequivocally to all who truly desire it from that same God. It is unfortunate that others who receive divine inspiration at some level feel that they have to copyright their art, their invention, their revelation, or their masterpiece of music. On such a world as Urantia it seems to be the appropriate thing to do. There are two ways to exist. One is within the perfect will of God and the other is outside of it to any degree of his permissive will. To the degree that you are in that perfect will is the degree that actualization of life and protection can be granted to you. On this planet, on the mansion worlds and in your ascension process, the degree of your own fulfillment and happiness is the degree

you can ascend more in that perfect will moment to moment in your own relationship with God. No one can force you to do that.

We send this issue of *The Salvington Circuit* and all volumes of *The Cosmic Family* to Washington D.C. and the Library of Congress in order to establish a date of authorship and copyright so that others in the future who may claim authorship themselves as humans, publishers or whatever, will not legally be able to stop us at Planetary Headquarters from publishing and distributing Continuing Fifth Epochal Revelation to the people of Urantia. We want it to be known that the source of this information came first through Gabriel of Sedona who has the mandate of the Bright and Morning Star, and from Planetary Headquarters. We do not want to be stopped from doing the perfect will of God by others who would try to get rich and powerful on the truth of God that is meant to be given unrestricted to all mankind. We ask a suggested donation for these books for there is a cost in the printing and distribution of them, and those humans involved have to financially be able to devote their time to process this massive revelation. It is most likely that many who cannot afford these publications will receive them for less than the suggested donation or free of cost.

Those involved in the work of God at Planetary Headquarters do not look to man for their support, but have learned to look to God. In time it is hoped that all on Urantia who are sincerely looking for the highest truth and for the highest revelations of God, will come to the conclusion that those in Sedona, Arizona, U.S.A., within the Aquarian Concepts Community are who they say they are, and that we in Celestial Overcontrol are indeed in contact with them.

Musicians !

If these transmissions have reached you, perhaps you are being called to join

GABRIEL

and the

BRIGHT AND MORNING STAR BAND

Lend your talents to a higher purpose. I write all original music and lyrics consisting of many different forms, including American pop, soul, country rock, folk, jazz, worship and New Age vocal. All my lyrics are meant to bring people to Christ Michael and the Universal Father whatever psychic circle they are on. The music is very diversified. I sing lead vocals and play acoustic guitar with Desmond, my cosmic son, who plays drums. We need a keyboardist, bassist, flutist, lead guitarist. If you play a contemporary style on another instrument and think it may work, let us know. You must be compatible to perform my music and work in **THE BRIGHT AND MORNING STAR BAND**.

If you sing lead or compose yourself, perhaps you can start your own band with musicians who may not fit into my band.

GABRIEL RECORDS wants to one day produce for other artists all types of spiritual music. God has a place for everyone. Reservists must particularly find that place in the Machiventa Government.

My vision is not only to have music concerts around the world for hundreds of thousands at a time, but to have music/healing concerts and to bring the masses to the Fifth Epochal Revelation. It is my prayer to Christ Michael that **THE BRIGHT AND MORNING STAR BAND** concerts will activate the Spirit of Truth in all who attend my concerts or who even listen to my tapes.

As of this time I only have one style professionally recorded, American soul/pop cassette/album, called *Escape*. Financially I can only afford third generation quality reproductions but I would be pleased to send you a copy for a minimum donation of \$10, which includes packaging and mailing,

The motto of **THE BRIGHT AND MORNING STAR BAND** is:

"The high mission of any art is, by its illusions, to foreshadow a higher universe reality, to crystallize the emotions of time into the thought of eternity."

The URANTIA Book

Aquarian Concepts Community is looking for contact personalities among *URANTIA Book* readers in the following areas: Pittsburgh, Pennsylvania, U.S.A.; the Yucatan area, Mexico; Maui, Hawaii; Glastonbury, England; Southern France; Jerusalem, Israel. If any reader knows of anyone in one of these areas and could pass this information on to them or pass on their addresses to us you would be doing yourself and the rest of the planet a great service. You can write to:

Delphius
P.O. Box 3946
West Sedona, AZ
U.S.A. 86340

If the truths in these pages have resonated in your heart and you would like to know more about us here at Planetary Headquarters we suggest you contact Desmond or Lexia at (602) 282-1804 Ext. 2017 for an Aquarian Concepts Community Introductory Orientation or request a first stage mailing. We also have some great weekend seminars at the end of each month to introduce you to Continuing Fifth Epochal Revelation. You will receive 14 to 17 hours of instruction from Friday evening till Sunday evening. We have been instructed by Celestial Overcontrol to work on a donation basis so that this revelation can be shared with every hungry-for-truth soul on the planet.

Spirituality is a golden box and within it can be found treasures, treasures that cannot be bought by ascending sons and daughters, for this golden box is owned by the Supreme Deity and its gifts are bestowed based upon each individual's willingness to seek his or her God in whatever way one can, based upon that search and knocking on the door of the heart of God, and then the golden box begins to be filled...
