In re: replying to my letter of Oct. 26.

Dear friends:

He was not authorized to do this!

Frequently, in my letter of October 26 I forgot to include one important question I was asked in California when I solicited donations and requests to the Foundation for translations: What will various translations cost under your supervision?

One member of the Los Angeles Brotherhood expressed willingness to sponsor a German translation for the \$15,000.00 estimated cost it can be obtained for in Siberia.

I have drawn several wills providing for large general bequests to the Foundation. You have given so many readers to doubt the wisdom of my past recommendations, when you give no reasonable assurance to my many requests I said I will be able in the future to continue to receive your administration of your trust.

Yesterday I received a most interesting 3 page report from Jacques Weiss. No doubt you also received one.

Enclosed in one of his sales Promotion Circulars. I had it translated into English by a teacher of French, here. I doubt if she did a very good job.

With best regards.

Very truly for progress while I live,

Robert A. Hall.
